

# Sprint: Finales Update der IoTNumb3rs Daten

Maria Margaritidou

## Qualitätsentwicklung

## Entwicklung der Infografiken und Datensätze

device\_count x prognosis\_year

### Drill-Down: device\_count auf Blogger

Drill-Down: device\_count auf Journalist

Drill-Down: device\_count auf Scientist

Drill-Down: device\_count auf Company

Drill-Down: market\_volume auf authorship\_class

Drill-Down: market\_volume auf Journalist

Drill-Down: market\_volume auf Scientist/Expert

Drill-Down: market\_volume auf Company

Drill-Down: device\_count auf Generic IoT

## Drill-Down: device\_count auf Vehicle

## Drill-Down: Device\_count auf Smart Industry

## Drill-Down: device\_count auf Entertainment

Drill-Down: device\_count auf Personal

Drill-Down: market\_volume auf Investment

Drill-Down: market\_volume auf Size

Drill-Down: market\_volume auf Impact

## Drill-Down: Market\_volume auf Value

Drill-Down: market\_volume auf Revenue

Prognosehorizont: Zeitspanne zwischen prognosis\_year und publication\_year

Prognoseerfüllung: Differenz zwischen realer device\_count und prognostiziertem device\_count
